Clean Air Village Solution

[Cross River Partnership](#) (CRP) is excited to be working with [The Fitzrovia Partnership](#) (TFP) with businesses in London's iconic West End. The business of Tottenham Court Road brings a lot of visitors – and air pollution – to the area, which makes this location an excellent addition to the Clean Air Villages project.

CRP is working closely with TFP to develop air quality solutions that benefit both the environment and the business district. We're engaging with businesses in the area, both members and non-members of The Fitzrovia Partnership, to see how we can help them cut costs through delivery and waste consolidations, switching to environmentally-friendly energy providers and exploring electric vehicle options.
