- [Scheme maps](#) available on our website
- Deliveries Guide [available online](#)
- Alfred Place programme [available online](#)

### New for this month

- Princes Circus fountain restoration work
- Alfred Place construction update
- St Giles Square update

### Project Update – 9<sup>th</sup> June 2021

As a reminder Gower Street and Bloomsbury Street is now two way to traffic between Grafton Way and High Holborn. This means changes for pedestrians, drivers and cyclists. The northern end of Gower Street remains one way to facilitate HS2 works and we will be in contact again once we are able to make the final full change to two way traffic.

The full traffic restrictions on Tottenham Court Road are now permanent. Areas of Tottenham Court Road are now restricted to buses and cyclists only on Mondays - Saturdays 8am-7pm. For more information on any of these changes [visit our website](#).

Our website [includes maps](#) on how you can drive around the area inside and outside of the restricted hours. The overview map was updated on the 19<sup>th</sup> May 2021.

Work has restarted around the St Giles Square area as the team continue to create a new public space.

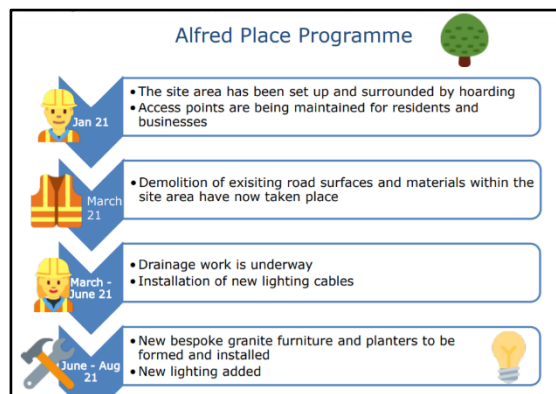

## **Alfred Place update**

Work is underway on Alfred Place to transform the area into a park. The road surface has been broken up, trial holes are underway to investigate the location of services and the hoarding is now up surrounding the first two working areas.

A programme of work has been shared online and sent to all local residents and stakeholders. You can view the programme [on our website](#).

We expect to complete the park in early

November 2021. Updates on progress will continue to be shared [on our website](#).

## **Princes Circus update – Fountain Restoration**

We are now in the process of tendering for the work to transform the public space at Princes Circus. Once a contractor is appointed we will share a predicted programme with all local residents and stakeholders.

Trial holes and other investigations have taken place across the site.

Our specialist contractors London Stone Conservation are now working on the painstaking process of carefully dismantling the Grade II listed fountain so it can be taken away for specialist conservation work. The fountain will be reinstalled as part of the new public space in Princes Circus.

## **St Giles Square update**

Works continues on the plaza around the Centre Point building. Our contractors Volkers are installing grills and uprighters around the tress to replace the temporary decking. They are also excavating to install drainage facilities so that more trees can be introduced. New stainless steel planters will be installed shortly. Once the tree drainage has been completed the site will be levelled in readiness for new benches and the completion of the specialist paving to the area.
